

2006 Minnesota Adventure Race Series Rules and Point System

Team Establishment

Teams and their series category (2-person, 4-person) will be established by the first race in which they compete.

Teams of the same name may exist, provided they are in different scoring categories.
(e.g. Team ACME – 2 person, Team ACME – 4 person.)

Points totals and category will follow the name of the team. Points cannot be transferred to a different team name, nor split between members of a team during the season.

Teams under the chosen name in later races must be made up of at least 2 of the people from the original team. This means that 2 person teams must remain constant throughout the season, while 4-person teams must have at least 2 of the original members for each race.

Scoring

Points will be awarded as follows:

4-Person scoring:

Ranked, finishing teams: MAX: 100

The winning 4-person team will receive 100 points toward the series championship. Each subsequent finisher will receive points based on a decrement of one from the preceding finisher. Therefore, 2nd place would receive 99, 3rd would receive 98, and so on.

Unranked, finishing teams MAX: 50

(if allowed by individual race rules)

4-Person teams that are unranked due to losing a team member (no less than 3 people) are still in the running for series points, even if not in the running for individual race ranking. However, the score they receive will be based on the score of the final ranked finisher and decremented from there by one for each subsequent unranked finisher, and then divided by 2. The unranked status will be noted for tiebreaking purposes at the end of the season. For example, say there were 25 ranked finishers, this means that the last place finisher got 76 points. The first finishing unranked team would then get $75/2 = 37.5$ points.

(Note: This will provide incentive for teams to continue on by giving them more points than those who decide to completely drop out.)

Teams that are removed from the course for violations: MAX: 0 MIN: 0

ZERO points

Teams that start but do not finish due to circumstances other than violations: MAX: 10

10 points

Ties:

Teams that may finish in a tie during a race will average the places they would have finished sequentially and divide the points among them equally, with the next team taking the next available position and points. (Ex: two teams tie for 3rd place. Take 3rd and 4th place points total = 195 and divide by two. 97.5 points each and the next team that finishes takes fifth place for 96 points.)

2-Person scoring:

Two person team scoring is exactly the same as for 4-person.

Series Champion

The series championship will be awarded to the team in each category with the most accumulated points from the current calendar year. Series recognition will be awarded to the top 3 places at the series championship race. In the case of a tie, the team with the fewest unranked finishes will be recognized. If no unranked finishes are noted, then, in order, highest place in a race, most races attended, and fewest penalties, will be used to designate the winner points collection.

Team points and totals will be judged and verified by series member organizations and the results posted on the series website for display.

* Rules may be subject to change, competitors are responsible for reviewing finalized documents to be posted on this site.
